EC Directive 89/686/EEC

EC Type-examination

Issue 1.

PPE Product

Microchem® 4000 APOLLO Encapsulated Splash Suit, which has an expanded back to accommodate the necessary self contained open circuit breathing apparatus. The one-piece coverall incorporates integral Ansell Barrier gloves, socks, visor & exhalation valves; elasticated double cuffs and boot flaps. This garment has a rear entry consisting of inner and outer zips which run from the neck to the bottom of the BA cylinder cover. There is a flap between the zips and an external flap which covers the outer zip during use. The suit has welded & taped seams and is available in six nominal sizes, product code: GR40-T-**-126-**, where ** is the packaging type & ** is the garment size code number.

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to be in accordance with the requirements of Council Directive 89/686/EEC. When examined the PPE satisfied the requirements of the relevant harmonized standards:
EN 14605:2005 + A1:2009 for Type 3 & 4 (Limited life, full body chemical protective clothing with liquid-tight & spray-tight connections);
EN 14126:2003 for Types 3-B, 4-B (Limited life, full body protection against infective agents).

The manufacturer's information notices (Microchem 4000 APOLLO Model 126, version 11.8.11 & Ansell Chemical Resistant Gloves 003/2004), in English, have been inspected and found to have addressed all of the relevant requirements of the standards. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

Certification is based on technical file: M4000, issue 12
